Automotive Key Boxes & Accessories

Indigo

The Indigo is a lightweight KeyBox designed specifically for dealerships who remove vehicle keys nightly. The automatic Snap Shut™ design provides greater efficiency and convenience by allowing lot attendants to replace vehicle keys in the morning without the use of a master key.

Supra MAX

The MAX is a durable one-piece constructed KeyBox that will hold multiple keys. It's heavy-duty construction and ease-of-use has made Supra MAX the world's most popular KeyBox.

Magnum

The Supra Magnum is the strongest KeyBox available. With improved tamper resistance and greater storage capacity, the Magnum will accommodate multiple keys and remote devices.

Supra C

For trucks, RVs, mobile homes and any application where a conventional automotive KeyBox would be out of reach. The Supra C can be attached like a padlock to the side view mirror, door handle or any convenient location for easy access.

Master Key Organizer

The Supra Master Key Organizer provides dealerships secure control over the master keys for KeyBoxes. The Organizer identifies each person that has a master key, so at the end of the day you can determine if all master keys are accounted for.

KeyBox Organizer

A storage rack to protect KeyBoxes. The Supra KeyBox Organizer conveniently stores up to 36 KeyBoxes on a sturdy steel frame. The KeyBox Organizer provides a central location for all KeyBoxes not currently being used.

Title Key

Supra Title keys aren't made from blanks. Instead, each has a unique combination - one that locksmiths cannot duplicate. (Keys are priced at the 25+ level when ordered with KeyBoxes).

See previous page for photos & pricing on each model.
